## Curriculum Intent

The student success that we celebrate in Art is achieved through inspiring and challenging lessons, equipping students with the knowledge and skills required to work creatively and independently.

Students gain a firm understanding by investigating a range of art movement works and art produced by other artists and designers. They are taught how to control a range of materials through specific tasks.

We encourage our students to experiment, invent and create their own works of art.

Our curriculum empowers students to develop as artists by working on individual pieces, enabling students to become independent and creative.

We aim to ensure that students value the role of art in the wider community and are confident to use the skills they develop to get involved in activities that enrich themselves and their communities.

In Year 12 / Year 13, students will study a range of art movements ranging from classic to contemporary.

We'll also look at a range of past and present artists.

We'll look at the ways in which meanings, ideas and intentions can be communicated through visual and tactile language using formal elements including colour, line, form, shape, tone and texture.

We'll also see how the characteristics, properties and effects of using different media, materials, techniques and processes can be used in relation to a student's own creative intentions.

These are some great educational tools to help students when revising.

If they are struggling with topics in lessons or want to enhance their learning in the classroom then these links are an ideal place to cover content at home.

Our intent is that all students have a full understanding of how to develop

# Careers

Students will develop problem solving, creative thinking, investigation, research, communication and teamwork skills, and gain the ability to develop, refine and present ideas.

Employers and universities regard all of these highly. Did you know more people work in the creative industries than the finance industry? Click on the logo below to watch a university student discuss their time studying Fine Art!

# The Art Way

The Art Way is followed in all of our lessons. It is designed to help students become young subject specialists and has two main purposes: to teach students the vital skills needed to achieve their full potential, and to demonstrate how Art relates to the wider world.

At WPT we're always looking for feedback. If you have any thoughts/opinions on this Curriculum Newsletter, its content or the curriculum in general, please click on the title to fill out a short feedback form.
