# Immerse Yourself

Our intent is that all students have a full understanding of how to develop themselves as well rounded citizens, maintain healthy relationships and understand how to keep themselves safe both online and in their day-to-day life. We want all students to know what options are open to them in the future and understand the routes they have in order to progress on their life journey.

To achieve this, our curriculum includes: artists and cultural links, visits or a visiting artist, virtual galleries, looking at the greater awareness of artwork in the wider world, after school art clubs, links to employment opportunities including ceramicist and printmaker, and working with an artist in their own environment where appropriate We also learn about historical and contemporary artists.

### The Art House - Sheffield

The Art House at St Matthew's is a community wellbeing charity for vulnerable people in Sheffield to support them on their recovery journey to a more fulfilled life. They hold regular workshops and events for everyone to attend.

The background is a complex collage. A large green chevron pattern covers most of the page. Overlaid on this is a semi-transparent image of a man in a suit and glasses. To the left, there's a partial view of another person's face. The right edge features a vertical strip of colorful, abstract, geometric shapes. The text is positioned in the upper left quadrant of the green area.

We run a series of 'Careers in the Curriculum' weeks in our school. For Art, this week takes place in November. Students will learn about how to apply the skills they learn in Art, to the wider world or work
