Year 11 Curriculum

In Year 11, students cover a wide range of content linked to the GCSE specification, we study the Edexcel Exam board specification. We have cycles of different topics which are simultaneously designed to revisit previous learning and build new language acquisition. This enables students to consistently build on previous skills and commit vocabulary to longer term memory.

The topics covered in Year 11 encourage students to strategically revisit and recall prior learning and to further embed vital GCSE vocabulary. All topics have been specifically constructed to give an array of opportunities to develop listening, reading, speaking and writing skills, all with the aim to help students succeed in their final GCSE examinations.

In Year 11, students complete mock exams to ensure they are prepared for their final GCSE examinations.

Some of the topics we cover in Year 11 are:

Work and Future Plans

Environment and Global Issues

Festivals, Celebrations and Customs

Dedicated Exam Revision

All of the topics we cover in MFL
have sentence builders which contain

Careers
